Dear Sirs,

**Re: US Patent Application for Wireless Data interface System for  
Fixed point-to-Point Communications  
Docket No: RIC97091C1 – George Kuriyan**

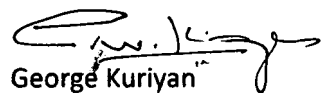

I received a letter from Verizon Communications asking me to sign a document regarding the Patent granted to me as Sole Inventor in 1997. I was asked to certify a document describing technical work that it was my work and all the claims as stated are made by me. I have never seen this document before and it does not represent my work. Therefore, according to the legal advice I received, I have declined to them to certify the document. I attach herewith a copy of the document and Verizon's request.

I also offered to Verizon that I am willing to cooperate and get the necessary work done so that this Patent can be completed. They have not responded to me so far.

I hereby request you to protect my Rights as the Sole Inventor of this Patent.

Additionally, I was granted 4 or 5 more patents between 1996 and 1998 as Sole Inventor. I request that you review whether any documents were filed under my name after 1998 on these patents. If they were, such documents do not represent my work.

Very Truly

  
George Kuriyan

Re: U.S. Patent Application for  
Wireless Data Interface System For Fixed Point-To-Point Communications  
Docket No.: RIC97091C1

Dear Mr. Kuriyan:

We have previously attempted to reach you in regards to a patent application filed recently, entitled "Wireless Data Interface System For Fixed Point-To-Point Communications". You are named as an inventor in this application and consequently the United States Patent and Trademark Office (USPTO) is now requesting that we submit the required formal papers with your signature.

We have enclosed a copy of the patent application, including the specification, claims, and drawings. Please review the entire application and sign and date the enclosed Declaration and Assignment forms where your name is listed. So that we may respond to the USPTO in a timely fashion, please promptly complete and return the signed forms to us in the self addressed stamped envelope enclosed herewith.

If we do not receive some form of response from you by **\*\*DATE AT LEAST 2 WEEKS FROM MAILING DATE\*\***, we will assume that you are either unable or unwilling to cooperate in further supporting this patent application.

In accordance with our duty of disclosure to the U.S. Patent and Trademark Office, if you or any one substantively involved in the application is aware of any information, such as other patent applications, patents or technical documents, not already called to our attention, which is relevant to the subject matter or examination of the application, please provide us with such information so that we may submit it to the U.S. Patent and Trademark Office for their consideration.

Should you have any questions about any of the above, please contact me at 703.351.3586.  
Thanks in advance for handling this promptly.

Best regards,

Eden U.I. Stright
